## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. HARBO *RA*

DATE: February 7, 1946

FROM : C. F. DOWNING

SUBJECT: MISCELLANEOUS INTERCEPTS *Copy*

At the present time the Cryptanalysis Section is maintaining a number of miscellaneous intercepts which are not now being used. It is recommended that this group of intercepts, listed on the attached sheet, be transferred to the Eighth Floor Administrative Files for maintenance similar to the intercepts previously sent there.

Retention rather than destruction of these intercepts is recommended for the following reasons:

1. The Security Division may at any time request cryptanalytic work on portions of this traffic.
2. Some of the traffic may become readable by virtue of information submitted to us in the future by our sources in Europe.

It is also recommended that the card index Call Letter File now maintained in the Cryptanalysis Section likewise be transferred to the Eighth Floor Administrative Files. The Call Letter File is a cross index by call letters to certain miscellaneous messages listed on the attached group.

Final disposition of this material will be made at the same time the disposition of all traffic now in the Administrative Files is taken care of. Periodic ticklers are being maintained on the status of this material by Supervisor L. L. Tyler and myself.

Included in this transfer are all cipher message record sheets and monthly technical summaries pertaining to these cases.

Re: HONDURAS COUNTERESPIONAGE ACTIVITIES

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 14 to 17, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Honduras government at San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers -

~~DISPERSED RECORD~~

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

Yours truly,

Re: CONSULAR CORP. ACTIVITIES,  
SAN FRANCISCO, CALIFORNIA-  
HONDURAN CONSULATE.

Dear Sir:

Reference is made to San Francisco letter to the Bureau,  
September 15, 1942, pertaining to the above subject.

Mr. H.W. WOODRUFF, Manager of the United Fruit Company, Los Angeles, California, advised that his company had discussed with shippers the policy of the United Fruit Company in that it would expect to maintain a schedule of ships going to Central American countries about every twenty-one days. However, there has been no information given to shippers concerning a schedule which reflects definite sailing dates by days.

He further advised that the United Fruit Company ships are under foreign flags, six of the ships being under Honduran Registry and one under Panamanian Registry. Mr. WOODRUFF advised that the operating office on the Pacific Coast of the United Fruit Company is located at 1001 - 4th Street, San Francisco, California, a Mr. DOSWELL being the manager of that office. He advised that the Honduran Consulate therefore would be quite conversant with the sailing schedule of these ships under Honduran Registry.

A ship of the United Fruit Lines Company docks at Puerto Armulelles, Panama about every week. This is a loading port for the return trip which cargoes consist principally of bananas after having discharged their cargoes of fruit, vegetables and construction materials at Balboa Canal Zone. The other ships on this schedule touch Manzanillo, Mexico; La Union, Salvador; San Jose, Guatemala; Corinto, Nicaragua; Puntarenas, Costa Rico about every three weeks. Coffee will be a new item for the United Fruit Company to ship on its return cargo for the United States, inasmuch as many Eastern consignees have requested the shipment of coffee along the West Coast route due to the hazard of submarines along the Atlantic Coast.

No additional information with reference to this subject has been found in our files; it is noted this information is also reflected in the files of the San Francisco Field Division.

Re: HONDURAN  
Counter Espionage Activities  
ESPIONAGE

Attention: Assistant Director STANLEY J. TRACY.

Dear Sir:

Attached is a strip of 35 m.m. minipan film containing reproductions of correspondence relating to the activities of the above individuals. On each strip preceding reproductions of the correspondence is a reproduction of an index card bearing the above caption.

It is requested that readable size prints be made from this film in the same order as they appear on the film, and that when translations are required such be made and returned with the prints. In those cases where the correspondence is in the English language, the prints only should be returned.

It is requested that the translations and photographs be returned to this office as soon as possible under the above caption and under Personal and Confidential cover.

Very truly yours,

Re: HONDURAS MATTERS

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 7 to - , inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of Honduras Consular staff in San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code bear our numbers - .

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and retained in confidential files in this office. The attached copy is for information.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage, in supplying various Field Office with investigative material, and possibly in other ways not now apparent.

Dear Sir: PERSONAL AND CONFIDENTIAL

A highly confidential source advised this office that the Honduran Consul possesses a copy of BENTLEY'S COMPLETE PHRASE CODE BOOK. This source also advised that the Honduran Consulate possesses a copy of PETERSON'S INTERNATIONAL CODE, Second Edition. The Consulate was furnished volume #3585 of PETERSON'S INTERNATIONAL CODE on May 21, 1925.

The PETERSON INTERNATIONAL CODE was copyrighted in 1923 by ERNEST E. PETERSON, 298 Pear Street, New York, New York. An enclosure letter which accompanied the PETERSON CODE indicated that a copy of the same code was used by the following people and agencies of the Honduran Government:

1. The President
2. The Minister of the Exterior
3. The Legation in Washington
4. The Consulate in New York
5. The Consulate in New Orleans
6. The Consulate in San Francisco
7. The Legation in Paris
8. The Legation in London
9. The Legation in Liverpool
10. The Legation in Hamburg

If the Bureau is desirous of obtaining a copy of the above books, and cannot do so through commercial channels, kindly advise this office and we will arrange to contact our source of information and furnish a copy to the laboratory.

Very truly yours,

DECLASSIFICATION AUTHORITY DERIVED FROM:  
FBI AUTOMATIC DECLASSIFICATION GUIDE  
DATE 07-30-2010

Re: HONDURAS ACTIVITIES

PERSONAL AND ~~CONFIDENTIAL~~

Dear Sir:                      Attention: Assistant Director S. J. Tracy

Enclosed are telegraphic messages numbered 4 to 6 inclusive, some of which are in plain language and some in code, which are to and/or from the Honduras Consulate in San Francisco.

With regard to those in plain language, it is requested that this office be furnished with two copies on onion skin paper of complete translations and that a separate sheet be used for each message if practicable. It will be noted that they are numbered chronologically. It is requested that the translations be numbered to conform with the message enclosed herewith.

With regard to those in code, it is requested that the Bureau attempt to furnish decodes to this office in the same manner as outlined above with regard to those in plain language. In addition, in the event it is found such messages cannot be decoded, it is requested that the messages be copied as they are and that copies of the messages in code be returned as outlined above. This additional request is made at this time for the reason that the Bureau may be in a position at a later date to decode such messages and furnish plain language text to this office. At such time the coded copies returned to this office will be destroyed and the plain language messages inserted numerically in our message file. In this way we will be able to examine a complete file of these messages over a long period of time and when considered with other information already available, develop a more accurate picture of the espionage activities, if any exist, with regard to these persons in this Field Division.

If any plain language messages in the English language are included in the enclosures, it is requested this office simply be supplied with two copies numbered to conform with the enclosures.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage in this country, in supplying various Field Offices with investigative material, and possibly in connection with certain other activities.

Re: HONDURAS MATTERS

PERSONAL AND ~~CONFIDENTIAL~~

Dear Sir: Attention: Assistant Director S. J. Tracy

Enclosed are telegraphic messages numbered 1 to 3 inclusive, some of which are in plain language and some in code, which are to and/or from the Honduras Consular office in San Francisco.

With regard to those in plain language, it is requested that this office be furnished with two copies on onion skin paper of complete translations and that a separate sheet be used for each message if practicable. It will be noted that they are numbered chronologically. It is requested that the translations be numbered to conform with the message enclosed herewith.

With regard to those in code, it is requested that the Bureau attempt to furnish decodes to this office in the same manner as outlined above with regard to those in plain language. In addition, in the event it is found such messages cannot be decoded, it is requested that the messages be copied as they are and that copies of the messages in code be returned as outlined above. This additional request is made at this time for the reason that the Bureau may be in a position at a later date to decode such messages and furnish plain language text to this office. At such time the coded copies returned to this office will be destroyed and the plain language messages inserted numerically in our message file. In this way we will be able to examine a complete file of these messages over a long period of time and when considered with other information already available, develop a more accurate picture of the espionage activities, if any exist, with regard to these persons in this Field Division.

If any plain language messages in the English language are included in the enclosures, it is requested that the office simply be supplied with two copies numbered to conform with the enclosures.

SE  
It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage in this country, in supplying various Field Offices with investigative material, and possibly in connection with certain other activities.
